Research Papers

Integrated Paleocene calcareous plankton magnetobiochronology and stable isotope stratigraphy: DSDP Site 384 (NW Atlantic Ocean)
W.A. Berggren, M.-P. Aubry, M. van Fossen, D.V. Kent, R.D. Norris and F. Quillévéré 1

Middle Pleistocene deposits at La Côte, Val-de-Lans, Isère department, France: plant macrofossil, palynological and fossil insect investigations
M.H. Field, J.-L. de Beaulieu, J. Guiot and P. Ponel 53

Late Glacial to Holocene history of the Mediterranean Outflow. Evidence from benthic foraminiferal assemblages and stable isotopes at the Portuguese margin
J. Schönfeld and R. Zahn 85

Mid-Pleistocene cave fills, megafaunal remains and climate change at Naracoorte, South Australia: towards a predictive model using U-Th dating of speleothems
K.C. Moriarty, M.T. McCulloch, R.T. Wells and M.C. McDowell 113

Evidence of glacial abrasion in the Calingasta–Uspallata and western Paganzo basins, mid-Carboniferous of western Argentina
O. López-Gamundí and M. Martínez 145

A comparison of living and dead molluscs on coral reef associated hard substrata in the northern Red Sea — implications for the fossil record
M. Zuschin, J. Hohenegger and F.F. Steininger 167

Special Issue: Biotic Responses to Rapid Climatic Changes Around the Younger Dryas
Edited By Brigitta Ammann

Preface

Rapid-Warming Project
B. Ammann and F. Oldfield v

Biotic responses to rapid climatic changes: Introduction to a multidisciplinary study of the Younger Dryas and minor oscillations on an altitudinal transect in the Swiss Alps
B. Ammann 191

Oxygen isotopes of lake marl at Gerzensee and Leysin (Switzerland), covering the Younger Dryas and two minor oscillations, and their correlation to the GRIP ice core
J. Schwander, U. Eicher and B. Ammann 203

Isotope signature of the Younger Dryas and two minor oscillations at Gerzensee (Switzerland): palaeoclimatic and palaeolimnologic interpretation based on bulk and biogenic carbonates
U. von Grafenstein, U. Eicher, H. Erlenkeuser, P. Ruch, J. Schwander and B. Ammann 215

Vegetational response to climatic changes recorded in Swiss Late Glacial lake sediments
L. Wick 231

Macrofossils as records of plant responses to rapid Late Glacial climatic changes at three sites in the Swiss Alps
K. Tobolski and B. Ammann 251

Late-glacial fossil midge stratigraphies (Insecta: Diptera: Chironomidae) from the Swiss Alps
S.J. Brooks 261
Response of the chydorid faunas to rapid climatic changes in four alpine lakes at different altitudes
W. Hofmann 281
Lateglacial and Early Holocene insect assemblages from sites at different altitudes in the Swiss Alps—implications on climate and environment
G. Lemdahl 293
Quantification of biotic responses to rapid climatic changes around the Younger Dryas — a synthesis
B. Ammann, H.J.B Birks, S.J. Brooks, U. Eicher, U. von Grafenstein, W. Hofmann, G. Lemdahl, J. Schwander, K. Tobolski and L. Wick 313
Younger Dryas and Allerød summer temperatures at Gerzensee (Switzerland) inferred from fossil pollen and cladoceran assemblages
A.F. Lotter, H.J.B. Birks, U. Eicher, W. Hofmann, J. Schwander and L. Wick 349
